What is Cemcolori?

Cemcolori is a high-quality, seamless, and waterproof concrete look finish for walls, floors, and various furniture. Cemcolori is a product based on cement and a specially developed resin. This makes the product strong, flexible and easy to clean.

Home: for bathroom, shower, toilet, kitchen and living room
Business: for entrance, showroom, sanitary rooms and offices

What makes Cemcolori so unique...

Our product is naturally 100% waterproof, contrary to other products on the market. The lacquer layer that is applied to Cemcolori serves only to protect it from dirt, which makes Cemcolori very maintenance-friendly. These properties make Cemcolori the alternative for tiles in wet areas. Moreover, it is possible to apply Cemcolori over the tiles, which eliminates the need for demolition and crushing work.

23 default colours and more...

What can I do with Cemcolori?

Cemcolori can be applied to virtually any stable substrate. A modern concrete look with limitless design possibilities for, for example, your bathroom, living room, kitchen, toilet, or business premises. Due to the unique composition, Cemcolori is the ideal product for any room in your house! This makes the Cemcolori product suitable for walls, floors, furniture, counter tops, and stairs.

Sustainable design

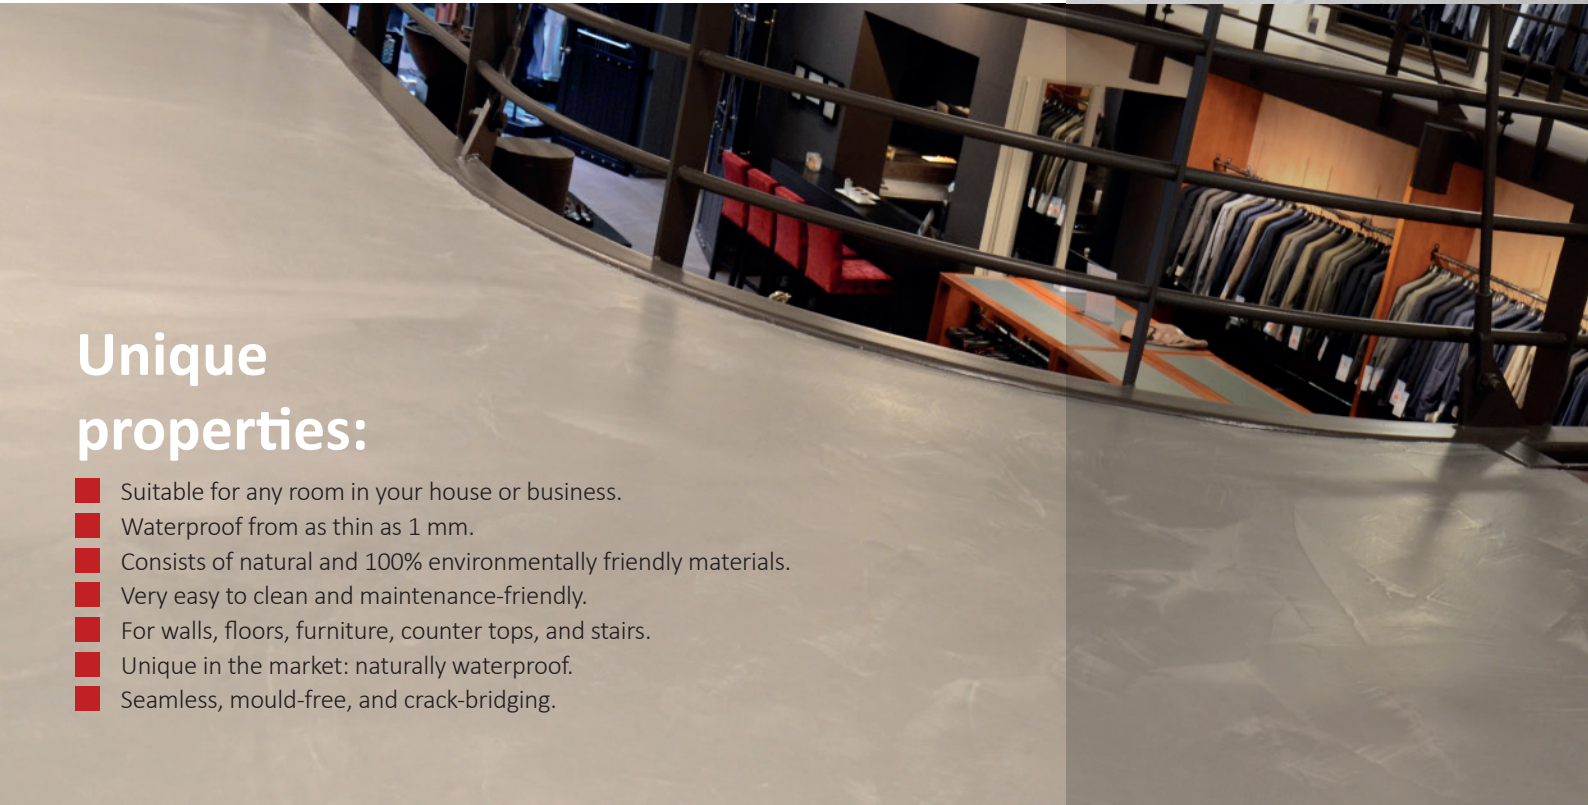

Cemcolori is a highly sustainable application for any area in your home or business. It consists of natural and 100% environmentally friendly materials. Cemcolori is very low in emissions and complies to the latest requirements of safety and comfort. And of course, we are proud of that!
